DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 3 and 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 3 recites the limitation "of the projecting part" in line 7. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 13, and 15-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Umabayahi et al (US6265692).

Umabayahi et al discloses a heating assembly with at least one PTC element for a motor vehicle comprising a PTC element (51a) arranged between two contact plates (51b, 51c), an insulating frame (51d), the two contact plates offset (Figure 4), corrugated ribs (337; column 6,

lines 1-55), and wherein the contact plates, PTC element, and corrugated ribs are bonded (column 7, line 38-column 8, line 25).

Allowable Subject Matter

6. Claims 1, 2, and 5-12 are allowed.
7. Claims 14, and 18-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
